About Exterro

Exterro was founded with the simple vision that applying the concepts of process optimization and data science to how companies manage digital information and respond to litigation would drive more successful outcomes at a lower cost. We remain committed to this vision today. We deliver a fully integrated Data Risk Management platform that enables our clients to address their privacy, regulatory, compliance, digital forensics, and litigation risks more effectively and at lower costs. We provide software solutions that help some of the world's largest organizations, law enforcement and government agencies work smarter, more efficiently, and support the Rule of Law.

FTK Imager Pro 8.2 SP1

Resolved Issues

1. Resolved an issue where application data extraction failed due to a password mismatch. Imager Pro now uses the correct backup password set during collection, ensuring successful decryption and extraction. **(FTKIP-929)**
2. Resolved an installer issue where systems with the latest Apple Mobile Device Support driver failed installation. The installer now detects supported existing drivers and skips unnecessary reinstallation. **(FTKIP-918)**

Contact Exterro

If you have any questions, please refer to this document, or any other related materials provided to you by Exterro. For usage questions, please check with your organization's internal application administrator. Alternatively, you may contact your Exterro Training Manager or other Exterro account contact directly.

For technical difficulties, support is available through support@exterro.com.
