

Project List Panel Reference

THE PROJECT LIST PANEL

1 CREATING A NEW PROJECT

Click the **Create New Project** button to create a new project from the *Create New Project* dialog.

2 SEARCH FIELD

If there are a large number of projects in the list, you can use the search bar to narrow the list.

Enter a text string and any project that has that text in the name will be displayed.

3 PROJECT LIST

Lists the names of all the projects to which the logged in user has permissions.

4 DELETE PROJECTS

Click to delete the selected project(s). This button is only active if a project is checked.

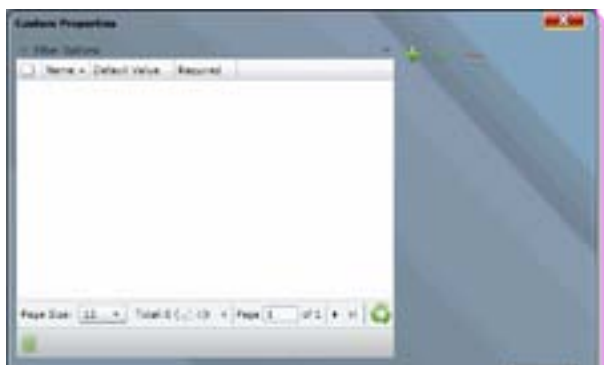

5 PAGE SIZE, TOTAL, NUMBER OF PAGES, AND REFRESH

The following items appear at the bottom of many panes through out the application. They perform the same tasks throughout the product. The recurring items include:

- **Page Size:** Allows you to select the number of items you want to appear in the list.
- **Total:** Lists the total number of checked items.
- **Page # of #:** Lists the current page and the total number of pages.
- **Refresh Button:** Click to refresh the list within the pane.

6 CUSTOM PROPERTIES

Click the **Custom Properties** button to add, edit, delete, and filter properties of the *Project List* in the *Custom Properties* dialog.

8 ADDING DATA

Click the plus sign next to a project in the Project List panel to add data/evidence. You can add evidence by using the Evidence wizard or importing a CSV or DII file. Users can also perform a cluster analysis from this dialog.

7 MANAGE COLUMNS

Click the Columns button to add, or remove viewable columns in the *Project List* from the *Manage Columns* dialog.

9 PROJECT REVIEW

Click the magnifying glass to enter the *Project Review* page.
